

1. Under the Christmas Lights

Snowflakes fall, and the city glows
The kind of warmth only December knows
We're wrapped in scarves, hearts open wide
Lost in the magic, with you by my side

Under the Christmas lights, the world feels bright
Everything's golden in your arms tonight
The snow keeps falling, but we're burning inside
Under the Christmas lights, love is alive

Carols echo from down the street
Footsteps crunching beneath our feet
Hot cocoa steam, and a frozen kiss
A winter moment I'll never miss

Under the Christmas lights, the world feels bright
Everything's golden in your arms tonight
The snow keeps falling, but we're burning inside
Under the Christmas lights, love is alive

This season comes and it fades too fast
But I know our love is built to last
Every shining bulb, every snowy flight
I'll remember you under the Christmas lights

Under the Christmas lights, the world feels bright
Everything's golden in your arms tonight
The snow keeps falling, but we're burning inside
Under the Christmas lights, love is alive

2. Snowflake Serenade

Silent streets, where the cold winds sing
December carries a peaceful sting
Frozen branches, their diamonds gleam
Every snowflake dances, chasing a dream

Hear the snowflake serenade, soft and true
A melody crafted just for me and you
Each note whispers through the frosty air
Bringing moments only love can share

Icicles form on the rooftops near
Chiming softly, a song you hear
The winter choir, its voice so high
A thousand stars light the velvet sky

Hear the snowflake serenade, soft and true
A melody crafted just for me and you
Each note whispers through the frosty air
Bringing moments only love can share

As the snow falls, the world turns still
Hearts are warmed by winter's will
Hold me closer, we're wrapped in fate
Lost in this snowy serenade

Hear the snowflake serenade, soft and true
A melody crafted just for me and you
Each note whispers through the frosty air
Bringing moments only love can share

3. Wrapped in Your Love

I don't need diamonds, I don't need gold
I've got the only gift I'll ever hold
The snow is falling, but I'm feeling warm
This Christmas love is my perfect storm

Every ribbon, every bow
Can't compare to the love we know
Under the tree, there's nothing I need
When your heart is the only gift I see

I'm wrapped in your love, it's all I want tonight
Your arms around me in the soft firelight
The world outside can freeze, but we're burning bright
I'm wrapped in your love, and it feels so right

The stockings hang, the carols play
But all of that fades when you look my way
The mistletoe knows we've got something real
This holiday magic's the way you make me feel

I'm wrapped in your love, it's all I want tonight
Your arms around me in the soft firelight
The world outside can freeze, but we're burning bright
I'm wrapped in your love, and it feels so right

We could make this moment last
Hold on tight, don't let it pass
Every day could feel like this
Forever sealed with a Christmas kiss

I'm wrapped in your love, it's all I want tonight
Your arms around me in the soft firelight
The world outside can freeze, but we're burning bright
I'm wrapped in your love, and it feels so right

4. Magic on the Radio

Frosty windows, I hear that sound
A Christmas classic spinning 'round
The melody fills the chilly air
Takes me back to a time we shared

It's magic on the radio
A song of love wrapped in winter's glow
Every verse, every rhyme
Brings me back to Christmastime

Driving slow through the city lights
Snowflakes twirl like stars tonight
The DJ says, "Now here's a hit"
The song starts playing, and I'm lost in it

It's magic on the radio
A song of love wrapped in winter's glow
Every verse, every rhyme
Brings me back to Christmastime

I remember us dancing, just you and me
To a Christmas tune under the tallest tree
The words are simple, the feeling's grand
As we spin together, hand in hand

It's magic on the radio
A song of love wrapped in winter's glow
Every verse, every rhyme
Brings me back to Christmastime

So play it again, let the memories flow
It's more than a song, it's the love I know
Forever a part of the holidays
This tune's the soundtrack of Christmas Day

5. Christmas Countdown

Lights are up, snow's coming down
Shoppers rushing all through the town

But I've got something else on my mind
Counting the days 'til your heart is mine

Five days to Christmas, and all I see
Is your smile lighting up the tree
Four days to go, I'm holding on tight
To the thought of your kiss on Christmas night

Three days to Christmas, I can't sleep
You're the only present I want to keep
Two days left, it's almost here
The best gift of all is having you near

One more night, and you're finally home
No more wishing under the phone
The countdown's over, love's in the air
This Christmas, I'll show you how much I care

No more waiting, the moment's here
A season of magic, and you appear
Forever wrapped in holiday cheer
This Christmas countdown led me to you, my dear

6. Meet Me in December

The frost paints the windows, the streets are white
Everywhere I look, it feels so right
But the only thing missing is you tonight
So I'm hoping you'll meet me in December's light

Meet me where the snowflakes kiss the ground
Where love feels like the only sound
I'll wait for you by the old town square
Just meet me in December, I'll be there

The clock strikes twelve, the bells will ring
We'll dance to the melody the carolers sing
The world is quiet, but my heart is loud
When I'm with you, lost in the crowd

Meet me where the snowflakes kiss the ground
Where love feels like the only sound
I'll wait for you by the old town square
Just meet me in December, I'll be there

The year may end, but love will stay
If we start forever on Christmas Day

Take my hand, let's make it true
Every December, I'll meet you

Meet me where the snowflakes kiss the ground
Where love feels like the only sound
I'll wait for you by the old town square
Just meet me in December, I'll be there

7. Tinsel and Tears

The tinsel's hanging on the tree
But it feels so empty without you here with me
The lights are shining, the fire glows
But this Christmas feels colder than the snow

I smile for the pictures, but my heart aches
It's a holiday season I just can't fake
Every ornament's a memory of years gone by
Tinsel and tears, I can't help but cry

They say this season is meant for joy
For laughing, for loving, for every girl and boy
But tonight, I'm wishing on a falling star
That wherever you are, you're not too far

I smile for the pictures, but my heart aches
It's a holiday season I just can't fake
Every ornament's a memory of years gone by
Tinsel and tears, I can't help but cry

I'll hang my hope on the mistletoe
Dreaming of a love that'll one day grow
But for now, I'll toast to what we had
And make this Christmas the best of the bad

I smile for the pictures, but my heart aches
It's a holiday season I just can't fake
Every ornament's a memory of years gone by
Tinsel and tears, I can't help but cry

8. Sleigh Ride to Forever

I hear the jingle of sleigh bells near
And I know this ride will bring you here
The frost in the air, the moon shining bright
A sleigh ride to forever starts tonight

Hold on tight, the reins are gold
This love is the story I want told
Through snowy fields and evergreen skies
This sleigh ride to forever never dies

Your laughter's warm, it melts the cold
The kind of magic that never grows old
The stars above light the way
As we ride through a perfect holiday

Hold on tight, the reins are gold
This love is the story I want told
Through snowy fields and evergreen skies
This sleigh ride to forever never dies

When the sleigh ride ends, and the snow clears away
I'll still be here, every Christmas Day
No matter the season, no matter the weather
We'll always have this sleigh ride to forever

9. Under the Mistletoe Glow

Crowds are rushing, lights are bright
The air is sparkling, a perfect night
But all I see is you standing there
Under the mistletoe, beyond compare

Kiss me under the mistletoe glow
Where our love lights the world below
In this holiday haze, let it be known
You're the only gift I've ever known

The choir's singing, the bells ring clear
But nothing else matters when you're near
The snow falls softly, but my heart beats loud
Under the mistletoe, lost in the crowd

Kiss me under the mistletoe glow
Where our love lights the world below
In this holiday haze, let it be known
You're the only gift I've ever known

Through every winter, I'll meet you there
With your lips on mine, we'll chase the air
The years may pass, the seasons flow
But I'll always find you in the mistletoe glow

10. Christmas Morning Magic

Wake up slow, the world's a dream
Snow outside, it's a winter scene
Stockings hang, the fire's warm
A Christmas morning, the perfect storm

Christmas morning magic, it's all we need
With your love, my heart's guaranteed
Presents wrapped in paper and bows
But the real gift is the love we've chosen

The smell of cinnamon in the air
The soft glow of lights everywhere
But nothing shines brighter than the way you do
This Christmas morning belongs to you

Christmas morning magic, it's all we need
With your love, my heart's guaranteed
Presents wrapped in paper and bows
But the real gift is the love we've chosen

As the day fades into twilight's hue
I'm still grateful for every part of you
This season's joy will come and go
But this love is the only thing I know

11. First Snow of Christmas

It falls so soft, a quiet scene
A blanket of white where the world's serene
We step outside, the night feels right
The first snow of Christmas is pure delight

Under the sky, we make our mark
Snow angels glowing in the dark
Each flake whispers a promise true
Of Christmas magic, me and you

The first snow of Christmas, it's more than cold
It's the story of love waiting to be told
Every step we take leaves a trace
A winter wonderland, our sacred space

The stars shine bright, the world's asleep
But in your arms, my heart takes a leap
With every snowflake that falls so free
This first snow feels like destiny

The first snow of Christmas, it's more than cold
It's the story of love waiting to be told
Every step we take leaves a trace
A winter wonderland, our sacred space

12. All I Want Is Christmas Night

The gifts are wrapped, the halls are decked
The tree is glowing, what's left to perfect?
The carols play, the world's so bright
But all I want is Christmas night

Just you and me, the fire's low
Holding on while the embers glow
The world outside can keep its cheer
As long as I've got you right here

All I want is Christmas night
Your love shining like the candlelight
The snow can fall, the stars can shine
But nothing compares to calling you mine

The holidays come, they fly away
But my love for you is here to stay
Let's make this moment last forever
This Christmas night, we're better together

All I want is Christmas night
Your love shining like the candlelight
The snow can fall, the stars can shine
But nothing compares to calling you mine

13. Christmas in the Air

I can feel it in the air tonight
The way the world sparkles in winter's light
There's joy in the streets, there's hope in our eyes
A season of wonder under December skies

Christmas in the air, it's everywhere
A melody of magic we can't compare
From the city lights to the forest pine
Christmas in the air, and it's yours and mine

Every heart beats to the same song
A rhythm of love that's been here all along

The bells are ringing, the choirs sing loud
Christmas unites us, we're part of the crowd

Christmas in the air, it's everywhere
A melody of magic we can't compare
From the city lights to the forest pine
Christmas in the air, and it's yours and mine

So take my hand, let's make this true
This holiday season starts with you
Together we'll shine like the brightest star
Christmas in the air is who we are

14. One More Christmas With You

The tree's decorated, the table's set
The kind of season you don't forget
But nothing here feels quite the same
Without your smile to light the flame

Just one more Christmas with you
To feel the love that we once knew
No gift could ever take your place
I just want to see your face

The lights are twinkling, the fire's bright
But my heart's missing its guiding light
Every carol, every tune
Takes me back to Christmases with you

Just one more Christmas with you
To feel the love that we once knew
No gift could ever take your place
I just want to see your face

If wishes worked like snowflakes do
I'd gather a blizzard to bring me you
So here I stand, beneath the tree
Hoping your love will come back to me

15. North Star Christmas

The cold wind blows, the night feels long
But your love is my compass, keeps me strong
Through every storm, through every chill
Your heart is my North Star, guiding still

North Star Christmas, you light my way
Through the darkest night, to a brighter day
No matter where this season finds me
Your love's the star I'll always see

The candles flicker, the frost takes hold
But your warmth is the story I've always told
Through every year, through every fight
Your love is the reason I shine so bright

North Star Christmas, you light my way
Through the darkest night, to a brighter day
No matter where this season finds me
Your love's the star I'll always see

Forever shining in the midnight blue
My North Star, I'll follow you
Across the seasons, through the years
Your love melts away my fears

16. It's Gonna Be Christmas Again

The wreaths are hung, the stockings too
And here I am, thinking of you
Last year was hard, we drifted away
But something tells me it's Christmas today

It's gonna be Christmas again
Love will find a way to mend
The sleigh bells ring, our hearts will sing
It's gonna be Christmas again

The snow is fresh, the past feels far
Like a candle relit, or a shining star
Let's start anew, just me and you
This Christmas feels like a dream come true

It's gonna be Christmas again
Love will find a way to mend
The sleigh bells ring, our hearts will sing
It's gonna be Christmas again

No matter the miles, no matter the tears
The spirit of Christmas draws us near
I see it now, the magic is clear
This is our time, this is our year
